[Docket Number FRA-2005-21613]

### Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on April 8, 2021, the Association of American Railroads (AAR), on behalf of itself and its member railroads, petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 229, Railroad Locomotive Safety Standards. The relevant FRA Docket Number is FRA-2005-21613.

Specifically, AAR requests an extension of the relief granted from 49 CFR 229.29, *Air brake system calibration, maintenance, and testing*, applicable to New York Air Brake CCB-1, CCB-2, and CCB-26; Wabtec Railway Electronics EPIC-3102D2 and EPIC-2; and FastBrake electronic air brake systems, for the extension of time intervals for level two and level three locomotive air brake system maintenance. AAR states that throughout the history of this waiver, several test committees, made up of representatives from industry, labor, and FRA, were formed to study air brake systems. AAR notes that FRA may propose codifying provisions of this waiver in the future. Additionally, AAR requests that FRA grant a unified extension to all AAR member railroads that are currently participating in this waiver.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](https://www.regulations.gov).

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing.
